

ShadeLoc® System

Unflappable.

ShadeLoc is a specialised side channel roller blind system. It captures the zippered edges of roller blind fabric to provide solar-shading, room-darkening, or both solutions in one installation.

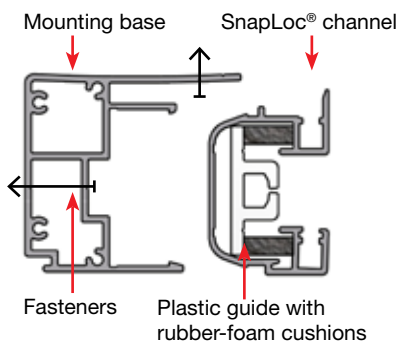

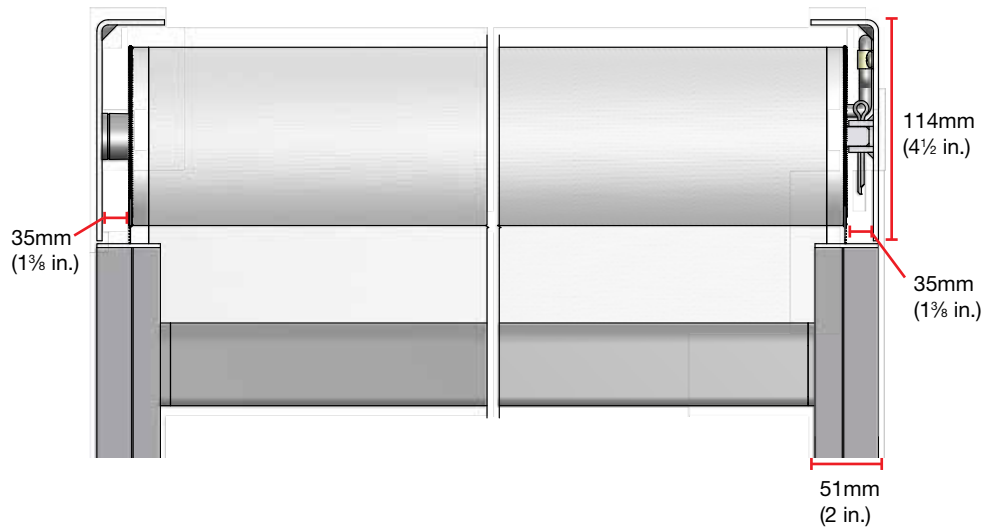

The zippered fabric glides smoothly yet securely within the side channels as it is raised or lowered.

This design configuration eliminates light gaps between the fabric and the channel. It stabilises the fabric, helping it resist impacts and stay put when room air pressure builds up. Tall, narrow roller blinds will track better, and the need for exposed hardware (such as guide cables) will be minimised.

Key features:

- Roller blind bands that lock into side channels.
- Impact resistance.
- Tall shades that track better.
- No light gaps.
- Superior room darkening.
- DoubleShade® and multiband configurations.
- Low future maintenance costs.
- Preassembled guide and side channel.
- Easy installation.
- Available with Electro®/2 (shown) and Electro®/1 brackets.

| Bracket options | Fabric options* | Max. width | Max. height |
|---|-----------------|------------------|----------------|
| Electro/1 and Electro/2 (89mm/3.5 in. tube) | 0700 Series | 5.03m (16.5 ft.) | 3.96m (13 ft.) |
| | 1300 Series | 5.18m (17 ft.) | 2.13m (7 ft.) |
| | 6000 Series | 5.18m (17 ft.) | 2.74m (9 ft.) |
| Electro/2 Extended (89mm/3.5 in. tube) | 0700 Series | 5.18m (17 ft.) | 8.53m (28 ft.) |
| | 1300 Series | 4.88m (16 ft.) | 6.71m (22 ft.) |
| | 6000 Series | 5.03m (16.5 ft.) | 8.53m (28 ft.) |
| Electro/SL Double (89mm/3.5 in. tube) | 0700 Series | 4.88m (16 ft.) | 8.23m (27 ft.) |
| | 1300 Series | 5.18m (17 ft.) | 3.66m (12 ft.) |
| | 6000 Series | 5.18m (17 ft.) | 4.72m (16 ft.) |

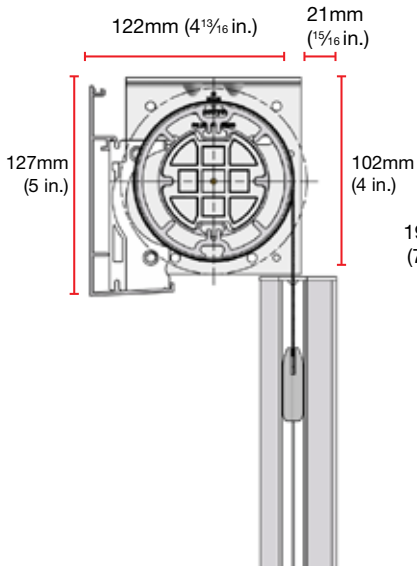

*No battens or stiffeners required.
